

Teach in Africa

VVA Rwanda

Virunga Valley Academy is a new Christian International School in Musanze, Rwanda

We are looking for qualified teachers ready for the adventure of a lifetime! VVA opened in 2014 as a ministry to the community of Musanze, Rwanda, a beautiful town nestled at the base of the Virunga Volcanos, the home of the worlds last remaining Mountain Gorillas.

Who are we?

We are a team of missionary educators serving Rwandan and ex-pat students and the children of missionaries in our community.

Where are we?

We are in northern Rwanda, one of the most beautiful and quickly developing countries in Africa. Our region includes many opportunities for hiking and mountain climbing and is near several beautiful lakes and national parks.

What is the opportunity?

Come be a part of a collaborative teaching team with the opportunity to shape the future of a new school and a developing nation. We are looking for preschool and primary teachers and a secondary educational facilitator helping students studying with Keystone National High School, an on-line school based in Pennsylvania.

What next?

Check out our website and send us an e-mail (see below) for more information. Our teachers are missionary educators and have to raise some funds to teach at our school. We assist with fundraising strategy and encouragement.
